Linkedin: <https://www.linkedin.com/in/fwsp/>

SUMMARY

Associate Software Engineer with over 2+ years of professional experience in designing, developing, and maintaining enterprise web applications and ERP systems using ASP.NET Web Forms, ASP.NET Core, ASP.NET Web API, Angular, C#, ADO.NET, and SQL Server. Proficient in developing RESTful APIs, integrating third-party APIs, designing databases, implementing stored procedures, and generating reports using Crystal Reports. Experienced in HTML, CSS, Bootstrap, JavaScript, IIS deployment, application maintenance, debugging, and production support. Additionally, skilled in WordPress, PHP, CodeIgniter, technical documentation, and building scalable, secure, and high-performance business applications using modern Microsoft technologies.

WORK EXPERIENCE

Finasal Tech Pvt Ltd

Associate Software Engineer

Aug, 2024 – July, 2026

Lahore, Pakistan

ERP System Development & Maintenance (ASP.NET Web Forms, C#, SQL Server)

Worked on the development, customization, deployment, and maintenance of an Import & Export ERP System using ASP.NET Web Forms, C#, and Microsoft SQL Server.

Key Responsibilities:

- Developed and enhanced ERP modules to support Import & Export business operations.
- Worked on Journal Voucher (JV), Import Management (IM), Account Management, Voucher Processing, and Attachment Management modules.
- Developed and maintained Account Ledger Reports, financial reports, and other business-specific reporting solutions.
- Designed and customized ASP.NET Web Forms (ASPX) and implemented business logic using C# Code-Behind (.aspx.cs).
- Created, modified, and optimized SQL Server Stored Procedures, functions, and queries to support business requirements.
- Utilized DAO (Data Access Object) architecture for database interaction and data management.
- Worked on Web Services (.asmx) and system integrations for data processing and communication.
- Deployed and maintained ERP applications on Windows Server using IIS (Internet Information Services).
- Configured and managed IIS websites, application pools, virtual directories, and application ports.
- Managed Windows Firewall inbound and outbound rules to ensure secure application connectivity and network communication.
- Troubleshoot and resolved server, deployment, database, and connectivity issues in production environments.
- Implemented client-specific customizations and enhancements based on business requirements.
- Performed bug fixing, performance optimization, and maintenance of existing ERP modules.
- Provided production support and ensured smooth operation of business-critical ERP applications.

WORK EXPERIENCE

Finasal Tech Pvt Ltd
Associate Software Engineer

Aug, 2024 – July, 2026
Lahore, Pakistan

WhatsApp API Integration & Deployment (ASP.NET Web Forms, Laravel, Node.js, REST APIs)

Conducted R&D to identify and implement a suitable WhatsApp-based communication solution based on company requirements.

- Researched, evaluated, and tested various WhatsApp Management Platforms.
- Successfully set up and configured the platform in a local development environment.
- Deployed and configured the WhatsApp Management Panel on a production server.
- Studied API documentation and integrated WhatsApp APIs with existing business applications.
- Implemented WhatsApp messaging integration in ASP.NET Web Forms-based ERP applications.
- Developed functionality for sending text messages and notifications through WhatsApp APIs.
- Configured and managed server settings, ports, and resolved connectivity issues.
- Assisted in WhatsApp device connection, QR code authentication, and session management setup.
- Integrated WhatsApp communication features with existing ERP modules.
- Provided testing, troubleshooting, bug fixing, deployment, and production support.

Web Development

Developed and maintained WordPress-based websites for multiple software products to showcase features, workflows, and product documentation.

- Customized WordPress websites with responsive and professional UI designs.
- Integrated themes and plugins based on project requirements.
- Created product documentation and feature showcase pages.
- Managed website content, updates, and performance optimization.
- Developed documentation portals for BMS, RMS, POS, IMS, AttenDeep, Hospital Support, and Billing Management Systems.
